Guardian Marine Anchors

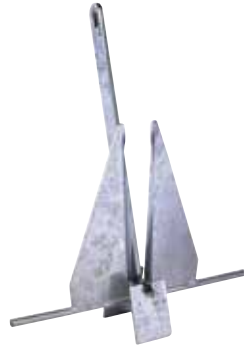

- Precision-machined from an aluminum alloy that is as strong as steel, but only half the weight.
- Less machining steps than Fortress with 32° angle only and non-anodized finish.
- Easy to manage weight.
- Rustproof.
- An affordable alternative to heavy steel anchors.
- Features Mud Palms designed to help the anchor set faster in any type of sea bottom. Mud Palms create a "life" to the crown of the anchor, causing the flukes to point more directly to the seabed.
- Disassembles for easy storage.

Hull Huger Contour Fenders

HULL HUGER

- Traditional round fenders tend to roll up, leaving your boat unprotected.
- They're also bulky to stow.
- Boats with step-down gunwales are especially vulnerable to damage from docks.
- These fenders stay put and stow conveniently under boat seats.
- They hinge to wrap around the gunwale and hull, following the contours of the boat.
- Constructed of a durable marine grade tri-laminate cover, with closed cell foam inside.
- There's a tough polycarbonate grommet at each end for hanging from cleats.
