

THERE'S A NEW SHERIFF IN TOWN.

Rated "EXCELLENT" & "BEST BUY"

PRACTICAL SAILOR®

2008, 2009, 2010, 2011, 2012, 2013, 2014

WRITTEN WARRANTY

Only distributed Marine Paint that offers a full Written Warranty on all antifoulings.

QUALITY INGREDIENTS

Blue Water Marine Paint™ contains higher concentrations of premium domestic copper & active ingredients, and only use virgin rosins, colorants & solvents in all antifoulings.

LASTING PERFORMANCE

Coatings available for single & multiple seasons, as well as epoxy hard, ablative, copper-free & SCX - Slime Control Xtra™ additives.

SUPER-B GOLD™ • Slime Control Xtra™ Multi-Season Protection - 67% Copper • BOOSTED COPPER ABLATIVE

■ **SUPER-B GOLD™** is the highest performance ablative copolymer on the market today. The highest copper content (67%) in our line, and in addition our performance booster SCX™ (Slime Control Xtra™) provides outstanding protection against slime, grass and weed. Continual release of biocide makes this self polishing copolymer most effective for anti-fouling

protection, with only minimal paint buildup. Tough, multi-season paint for superior protection against hard and soft growth in extreme fouling conditions, and can re-launch after extended haul-out while retaining original antifouling properties. Perfect for powerboats and sailboats, and can be applied directly over properly prepared ablatives, epoxies and vinyl's, and most any other hard or ablative bottom paints.

SUPER-B XTRA™ • Slime Control Xtra™ Multi-Season Protection - 45% Copper • BOOSTED COPPER ABLATIVE

■ **SUPER-B XTRA™** provides extended antifouling protection against barnacles, algae and hydroids in salt and fresh water on boat bottoms only. SCX™ - SLIME CONTROL XTRA™ - acts like a sunscreen to prevent slime and algae. Its ablative copolymer base renders a smooth finish with durability and abrasion resistance. SUPER-B XTRA™ releases biocide by the

constant exposure of new paint film to the water. SUPER-B XTRA™ has universal application over all types of properly prepared bottom paints (except aluminum). For use on fast fiberglass boats, as well as wood and steel hulls, extended protection is possible, since performance is directly proportional to the amount of paint applied.

CAMOUFLAGE PAINT™

Topside Silicone Copolymer

■ **CAMOUFLAGE PAINT™** is a technically advanced, single component silicone copolymer topside finish that delivers a mirror-like finish. Loaded with UV stabilizers, **CAMOUFLAGE PAINT™** will last up to 5 times longer than conventional topside finishes. Extremely durable, hard, super high gloss, exceptional color retention, and tremendous durability.

■ **CAMOUFLAGE PAINT™** is fast drying which when brushed or rolled gives a silky smooth finish with excellent handle and flow. This widely used silicone copolymer has tremendous resistance to tough chemicals, cleaning solutions and ultraviolet light. Can be used on fiberglass, wood, aluminum and steel. It's like wrapping your boat in glass!

- Hard, mirror high gloss one-part silicone copolymer finish with great UV protection
- Great for cleaning, tough abrasion & stain resistance
- Silky finish which is easy to apply by bristle brush and/or roller
- Perfect for waterline striping

7-2660	Olive Quart	\$13.98
7-2661	Brown Quart	\$13.98

Marpro Mar-Protect Epoxy Primer™

- High Build Epoxy Primer.
- Heavy duty 3:1 epoxy coating that prevents water absorption and blistering of a fiberglass hull.
- Provides a seamless epoxy coating that creates a high build water barrier that eliminates any direct path for water migration.
- Excellent anti-corrosive substrate primer for metals.

Order No.	Description	Price
7-2670	Gallon	\$102.98

Marpro Barrier Shield™

- A barrier/sealer coat over incompatible or unknown antifoulings.
- Effective anticorrosive primer for underwater metal surfaces.
- An excellent primer for antifouling paint over sanded fiberglass.

Order No.	Description	Price
7-2689	Gallon	\$117.98

Marpro Strontium Chromate™ - 2-Part Aluminum Primer

- Excellent 2-part metal primer.
- Ideally suited for corrosion resistance for bare metals.
- Long pot life.
- Heavy duty 1:1 mix.
- Perfect for large surface area when steel and aluminum primer systems for corrosion control is required.

Order No.	Description	Price
759071	2 Gallon Kit	\$276.98

PETTIT MARINE PAINT

PRODUCT GUIDE

Introducing a clean, new world of Hard Hybrid antifouling-

- Durable Smooth Finish That Resists Build Up
- Economical Antifouling Protection
- Compatible Over All Bottom Paints
- Easy Clean-Up With Soap and Water

Neptune5 antifouling uses the latest technology available to create a hybrid paint film strong enough to handle the tough marine environment without building up over time. Its cross-breed finish is extremely durable like a hard paint, yet it self-polishes over time like a seasonal ablative. Soap and water cleanup, along with no strong solvent smell, yields a user friendly application. Neptune5 can be used over all previously painted surfaces. Available in four colors.

Easypoxy is a modern polyurethane topside and deck enamel improved by the addition of silicone for brilliant shine and easy brushability. It has ultraviolet filters which enhance the already superior gloss retention and durability of polyurethane. The result is a topside finish that's exceptionally easy to apply, producing a lasting gelcoat-like brilliance with a minimum of effort. For a semi-gloss finish for decks and interiors use 3106 Easypoxy

Semi-Gloss White or simply add 9080 Easypoxy Satin Additive to any Easypoxy color for a custom satin look. Be sure to use **EZ-Prime 6149** as a base primer prior to application - see the product description below for more information.

EZ-Poxy² is a high-performance, two-part polyurethane marine paint without all of the costs and hassles associated with two-part enamels. EZ-Poxy² combines the added gloss, wear resistance, and durability boaters are looking for in a two-part polyurethane enamel with the ease of application of a single part product. This revolutionary formula reduces the effects of brush strokes and is so forgiving; it's practically fool-proof. In fact, EZ-Poxy² is so innovative that it makes exact mixing ratios a thing of the past. Its added UV protection and gloss retention will keep your boat looking shiny and new for years to come. It is more economical, requires less effort, and is more forgiving than the competition.

EZ-Prime is a multipurpose primer designed for use as a base coat whenever the surface to be painted is aged, cracked, checked, pitted or in any way

less than smooth. It can be applied to fiberglass, wood, properly etched metal and previously painted surfaces. EZ-Prime fills imperfections fast, dries quickly and is easy to sand.

EZ-CabinCoat is a high-performance, water-based paint specially formulated for areas such as cabins, that are prone to moisture. A super-tough finish provides a moisture resistant, mold & mildew proof

surface that will stay good-looking for years. EZ-CabinCoat provides excellent adhesion to most glossy and hard to paint surfaces without the need for sanding. Easy application, with soap & water cleanup.

EZ-Decks is a super tough polyurethane non-skid performance deck finish containing a polypropylene grit that produces a slip-resistant finish on all decks and cabin soles. The durable

weather resistant finish resists long term abrasion and abuse. It's loaded with ultraviolet filters to fight against fading while offering superior color retention that will stay vibrant for years without peeling or cracking.

EZ-Bilge is a durable high-performance alkyd finish specially formulated to withstand the abuses associated with boat bilges. Its tough resilient surface will stand up to years of

engine fluids, abrasion and wear. EZ-Bilge is easy to apply by brush, roller or spray and provides excellent coverage.

VARNISHES, STAINS & SEALERS

Captain's Varnish 1015 is highly regarded for its ease of application, outstanding gloss retention and tough yet flexible durability. A combination of phenolic and alkyd resins blended with tung and linseed oils provides excellent performance. Its warm, light amber hue will enhance the rich, classic brightwork appearance.

Flagship Varnish 2015 offers the best protection against the sun's damaging rays. With 6 times more UV inhibitors, this blend of phenolic and alkyd resins combined with tung and linseed oils offers excellent performance and a warm, deep amber hue. This high-build formula offers excellent abrasion resistance and a high gloss finish.

Paste Wood Filler Stains fill the grain and stains the wood to enhance its natural beauty. The fillers can be intermixed and shaded with color in oil or universal colorants to achieve custom colors. The use of wood filler stains reduce the number of varnish coats required.

Captain's Satin Sheen Varnish V-975 is specifically designed to enhance the beauty of interior woodwork with its soft, satin finish. Its pale, durable, long lasting polyurethane coat is water and alcohol-resistant. Satin Sheen is easy to apply and is intended for interior use only.

Captain's Ultra Clear Varnish 2067 is a premium urethane varnish with strong UV inhibitors. It features outstanding gloss retention along with an unparalleled resistance to foot traffic, chipping and scratching. This high-build formula offers ease of application, exceptional brushability, and excellent leveling characteristics.

- Red Mahogany - 1081
- Brown Mahogany - 1082
- Standard Mahogany - 1095
- Dark Mahogany - 7665

EZ-Wood Sealer 2018 is a phenolic resin-based sealer used for sealing all types of raw wood prior to painting. The sealer acts as a moisture barrier layer to prevent peeling and excessive absorption of vehicle from topside primers, paints, or varnishes by the new wood. This sealer uniformly seals and satisfies the absorbency of all woods including Teak.

High Build Varnish 2056 boasts the highest build and film depth per coat. Strong UV inhibitors are added to a blend of phenolic and alkyd resins combined with tung and linseed oils for easy application, high UV protection, excellent gloss, and a warm, deep amber hue. A good varnish for building up multiple coats quickly.

Using a varnish not only enhances the beauty of wood, it seals and protects from moisture and UV damage. Scan here for more info.

HARD ANTIFOULING

Trinidad®SR and **Trinidad®PRO** – the standard by which all bottom paints are measured. It remains the longest lasting, strongest antifouling paint available. Utilizing the dual biocide combination of a high copper load and slime resistant Irgarol, Trinidad® SR provides unprecedented resistance to all fouling. Its hard protective coating has excellent adhesion, and withstands the toughest abuse. Left in the water, it will provide years of dependable service. So effective it earned Practical Sailor's "Gear of the Year" honors twice.

Trinidad®SR

BLUE - 1277 GREEN - 1377 RED - 1677 BLACK - 1877

Trinidad®PRO

BLUE - 1082 GREEN - 1083 RED - 1086 BLACK - 1088

Trinidad® and **Trinidad® 75** – the top-of-the-line in conventional antifouling paints. It has earned its reputation as one of the most respected names in the industry. Trinidad® delivers an extremely high load of cuprous oxide (up to 75%), to combat even the most extreme fouling conditions. Its durable, hard modified epoxy finish has excellent adhesion, and is highly abrasion resistant. When left in the water, Trinidad® will provide years of dependable service. The perfect choice for competitive racing or blue water cruising.

Trinidad®

Unepoxy® and **Copperguard®** have long been the standard bottom paint for many boatyards and boat owners. It is a dependable antifouling paint formulated to provide outstanding protection at a very affordable price. Its durable, hard modified epoxy finish is able to withstand beaching, trailering, and season long abuse. It provides excellent coverage and adhesion, and can be applied over most bottom paints in good condition. Suitable for all non-aluminum trailered boats.

Unepoxy®

BLUE - 1228 GREEN - 1328 RED - 1628 BLACK - 1810

Copperguard®

BLUE - 1042 GREEN - 1043 RED - 1046 BLACK - 1048

FRESHWATER ANTIFOULING

SR-21 is an ultra-thin, super slick, low friction film for boat bottoms. It is an ideal racing finish for fresh water or cold saltwater boats. Its dual biocides combine the power of copper and Irgarol to produce an effective, thin film antifouling. It contains the slicking agents PTFE and Molybdenum Disulfide to reduce surface friction, allowing the hull to slide through the water. SR-21 is easy to apply and dries in 15 minutes. Color changes upon immersion.

BLUE - 1221 ORIGINAL - 1921

HYBRID ANTIFOULING

Neptune5 uses the latest technology available to create a hybrid paint film strong enough to handle the tough marine environment without building up over time. Its crossbreed finish is extremely durable like a hard paint, yet it self-polishes over time like a seasonal ablative. Soap and water cleanup along with no strong solvent smell, yields a user friendly application. Neptune5 does not require sanding between coats saving time and money. With low VOC it's ideal for marinas under restrictions. Neptune5 can be used over all previously painted surfaces.

BLUE - 1243 GREEN - 1343 RED - 1643 BLACK - 1843

EPOXY PRIMERS

Pettit Protect®
High-Build Epoxy Primers –

GRAY 4700/4701 White 4100/4101

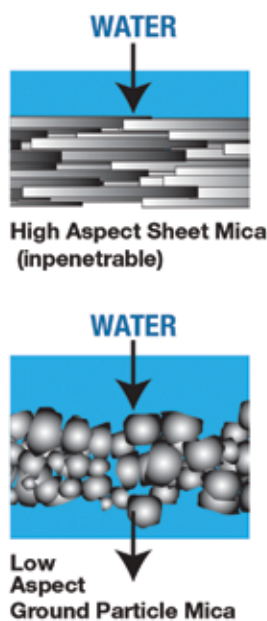

- Faster and easier application
- Comprehensive gelcoat blister repair and prevention
- High-build formula covers in 3 coats vs the competitors 5 or 6 coats
- Exclusive Low-VOC formula developed specifically for friendly application

Pettit Protect is a heavy duty, two component, epoxy coating for use where maximum resistance to fresh or salt water is required. It reduces water absorption making it an excellent choice for osmotic blister prevention and repair. Its high-solids formula allows for quicker and easier application with fewer coats necessary for effective protection. It also offers dependable corrosion protection on all underwater metals.

GRAY - 4700/4701 WHITE - 4100/4101

What makes **Pettit Protect®** different?
That would be **MICA SHIELD TECHNOLOGY.**

Aspect Ratio – All premium epoxy primers use Mica to prevent water intrusion. Pettit Protect Mica is incorporated into the epoxy resin while in sheet form, where as other competitors use Mica in a ground form. The differences between the types of mica used in epoxy primers is the ratio of the mica particle length to its width. **Pettit Protect uses a high aspect ratio mica whereas other competitors used a low aspect ratio mica.** The sheets with high aspect ratio Mica are forced to overlay each other creating an impenetrable layer of epoxy. The issue with low aspect ratio Mica is when rolled out, there is no structure. The Mica isn't guaranteed to overlap and create the impenetrable layer of epoxy. See diagram at the left.

Note: All swatch colors shown in this brochure are approximations of the actual paint color in the can or mixes.

PETTIT

pettitpaint.com • 800-221-4466

ABLATIVE ANTIFOULING

Ultima® SR 60 delivers exceptional, multi-season, dual-biocide performance by combining the highest ablativ copper load (60%) with slime resistant Irgarol. Contains 50% more copper than Micron® Extra, to provide stronger protection in even the toughest conditions. Its ablativ surface wears away over time, reducing build up. Utilizes the same proven formula as Ultima® Pro from our Pro Coatings line. Note: Due to extremely high copper load, some variations in color and finish may occur.

Ultima® SR 40 utilizes a high copper load (40%) combined with Irgarol to offer outstanding dual biocide, multi-season control in all types of fouling. Its ablativ surface minimizes coating build-up to keep underwater surfaces smooth, while providing a continuous supply of fresh biocides. Can be hauled and re-launched without repainting. Formerly sold as Ultima® SR and Horizons® Pro, this formula has a proven track record as one of America's premium ablativ bottom paints.

Ultima® Eco combines the breakthrough, metal-free Econeat™ biocide with a powerful slime fighting agent for dual-biocide, multi-season protection. This copper-free formula can be safely used on all substrates, including aluminum. It provides excellent antifouling protection, with an ablativ surface that makes it the perfect choice for both power and sailboats. Ultima Eco's surface wears away over time, eliminating paint film build up and the need for sanding. It can be used on almost all previously painted surfaces in good condition.

Ultima® SSA is an economical, yet extremely effective ablativ bottom paint. Utilizing the proven formula of Premium® SSA, Ultima® SSA provides excellent antifouling protection with an ablativ surface that makes it an excellent choice for both power and sailboats. Ultima® SSA's surface wears away over time, eliminating build up or the need for sanding. It can be used on most previously painted surfaces in good condition. One or two coats per season are recommended for optimal performance.

PERFECT PICK

Take the guess work out of choosing your next antifouling paint with our easy to use **PERFECT PICK**.

Note: All swatch colors shown in this brochure are approximations of the actual paint color in the can or mixes.

HYDROCOAT TECHNOLOGY ANTIFOULING

New!

Hydrocoat® ECO Self-polishing, water-based ablativ technology with organic Econeat™ biocide. Hydrocoat Eco utilizes the highest level of new metal-free Econeat biocide available combined with a slime fighting inhibitor for unprecedented multi-season protection. This copper-free formula is compatible over almost all bottom paints and is safe for use on all substrates including steel and aluminum.

Hydrocoat® SR is the world's first dual-biocide, water-based, ablativ bottom paint. Dual-Biocides provide outstanding multi-season protection. Hydrocoat SR uses Composite Copper Technology combined with an organic algaecide to offer outstanding protection against hard and soft fouling, for better antifouling protection and a greener earth. Ablativ technology eliminates sanding and paint build-up. It is easy to apply and cleans up with soap & water.

Hydrocoat® offers excellent multi-season protection against all types of fouling. Its innovative technology replaces the harsh solvents found in most bottom paints with water, resulting in an easier application and clean up, with no heavy solvent smell. Hydrocoat's ablativ surface wears away with use, exposing fresh biocide while eliminating paint build up and the need for sanding. Its unlimited dry time to launch allows for painting in the fall.

PONTOON BOAT ANTIFOULING

Pontoon Pro - was designed specifically for pontoon boats and aluminum hulls. It combines the breakthrough, metal-free ECONEAT™ biocide with a powerful slime fighting agent for dual-biocide, multi-season protection. This copper-free formula can be safely applied to all aluminum hulled boats. It provides excellent antifouling protection, with an ablativ surface that polishes with use. The paint film wears away over time like a bar of soap, eliminating build up or the need for sanding between coats. It can be used over all previously painted surfaces in good condition.

PROPELLER AND SHAFT

Prop Coat Barnacle Barrier 1792 provides easy to use aerosol spray protection for bare metals including steel, stainless steel, cast iron, copper, bronze, galvanized steel, and lead. It forms an excellent bond to underwater metals and running gear, and inhibits corrosion on these surfaces. Prop Coat Barnacle Barrier's smooth, hard surface will self-clean in service, and can be used above or below the waterline. The dried film of Prop Coat contains the highest percentage of pure Zinc.

pettitpaint.com • 800-221-4466

Vivid® offers the brightest colors, the blackest black and the whitest white available. Dual biocides provide excellent multi-season protection. Hybrid technology incorporates all the benefits of abrasive and hard paints in one. Its hard, smooth surface withstands trailering and is easily burnished to a high performance racing finish. Vivid® resists build up and can be hauled and relaunched without repainting. Safe for use on properly primed aluminum. The perfect choice for any boat.

Racers look no further, this guide demo's the application of a smooth racing finish with Vivid.

How Much Bottom Paint Do I Need?

1 Calculate the square footage of the hull to be painted – multiply the length of the hull by the beam then multiply that total by .85

Length x Beam x .85 = Square Feet of Hull

2 Divide that number (your square foot total) by the amount of coverage the selected bottom paint offers. This will give you a one-coat total.

Use this chart to determine compatibility and application preparation necessary to overcoat with Pettit Paints

UNDERWATER METALS

Metal Primer 6455/044 is a two-part, self-etching wash primer for use above or below the waterline on all bare mdrboards, and underwater running gear. Overcoat with epoxy primer, tie-coat primer, topside enamels, or antifouling paint.

Underwater Metal Kit 6456 combines convenient sized containers of both our Metal Primer and Tie Coat Primer in one easy package. This kit is specifically designed for the painting of underwater metal running gear including shafts, struts, props, thru-hulls, and trim tabs.

Prop Coat Barnacle Barrier 1792 provides aerosol spray protection to bare metals above or below the waterline. Its smooth, hard surface will self-clean in service and inhibits corrosion on steel, stainless, cast iron, copper, bronze, galvanized and lead.

Tie Coat Primer 6627 is a general purpose chlorinated rubber primer for use above and below the waterline on metal surfaces or as a tie coat between different types of coatings. When used over Pettit 6455/044 Metal Primer it forms an excellent, easy-to-use system for use on all underwater running gear.

AlumaProtect 4400/4401 is a two-part epoxy primer for use on sand-blasted aluminum where maximum corrosion resistance to fresh and salt water is required. Usually over coated with PettitProtect High Build Epoxy 4700/4701 when used on bare aluminum, pontoon hulls and outdrives.

Alumaspray® Plus is an aerosol antifouling paint specifically designed for use on aluminum outdrives and outboard motors without the need for a barrier coat. Alumaspray Plus offers superior resistance to all types of fouling.

UNDERWATER METAL SYSTEMS CHART

	Good System	Better System	Best System
Outdrives (Previously Painted)	Scuff Surface Spray Alumaspray + (Apply 1 aerosol can per unit)	Scuff Surface Tie-Coat Primer (1 coat) Ultima Eco(1 coat)	Scuff Surface Tie-Coat Primer (1 coat) Hydrocoat Eco or Vivid Antifouling (2 coats)
Stainless Steel & Bronze	Sandblast or Abrade Surface Spray Prop Coat Barnacle Barrier (2-3 Coats)	Metal Primer 6455/044* (1 coat) Tie-Coat Primer (1 coat) Vivid Antifouling (2 coats)	Sandblast or Abrade Surface Metal Primer 6455/044* (1 coat) 4700/4701 Pettit Protect (2 coats) Vivid Antifouling (2 coats)
Aluminum Hulls	Metal Primer 6455/044* (1 coat) Ultima Eco (2 coats) (Smooth, non-abraded surfaces only)	Metal Primer 6455/044* (1 coat) Tie-Coat Primer (1 or 2 coats) Ultima Eco (2 coats)	(Maximum Corrosion Protection) Sandblast or Abrade Surface 4400/4401 Aluma Protect (2 coats) 4700/4701 Pettit Protect (2 coats) Hydrocoat Eco or Vivid Antifouling (2 coats)

If paints containing TBT were previously used, Tie-Coat primer must be applied before Alumaspray+, Hydrocoat Eco, Vivid or Ultima Eco
* If metal substrate temperature is below 60 degrees Fahrenheit, allow overnight dry before proceeding to next step

CLEANERS / DEWAXERS

Bio-Blue Hull Surface Prep 92 de-waxes, cleans, and prepares bare fiberglass for painting. Easily removes unwanted contaminants and mold release agents prior to painting. When used with 6998 Skip Sand and antifouling paint, it is part of an easy 1-2-3 system.

Skip Sand Primer 6998 eliminates the need to sand before applying antifouling paint providing a system of excellent overall adhesion. It may also be used between two-part epoxy primers and antifouling paints. 6998 has an extended overcoating window of a few hours up to 7 days to apply bottom paint.

Rustlok Steel Primer 6980 is an easy to apply, moisture and corrosion proof primer for use on all cast iron and steel surfaces, including galvanized and stainless. Its water impervious barrier offers excellent adhesion and corrosion protection even over rusted surfaces.

Follow this simple guide to eliminate the need for sanding bare gelcoat.

SPECIALTY EPOXY PRODUCTS

EZ-Fair 7050 Epoxy Fairing Compound - Lightweight, two-part epoxy putty designed for filling and smoothing surface imperfections above and below the waterline. The special resins used in EZ-Fair impart a high degree of water and chemical resistance to the product, making it an integral part of the Pettit Gelcoat Blister Repair System. In addition, EZ-Fair is the product of choice for fairing metal keels or any underwater surface. Available in can kits or a unique self measuring, self mixing cartridge dispenser.

A-788 Splash Zone - Extremely hard, abrasion and impact resistant, two-part epoxy patching compound. It applies like putty to seal, fill, patch or rebuild aluminum, wood, concrete, fiberglass, and steel. It can be applied in or out of water to repair boat hulls, buoys, seawalls, docks, bridge abutments, and more. Splash Zone provides excellent protection against corrosion of metals and erosion and deterioration of concrete or wood. Splash Zone's rock-hard surface can be drilled, tapped, or machined.

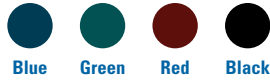

Flexpoxy 7076 Two-part epoxy resin that does not sag, run, or shrink. Its thick formula allows it to fill large cavities in a single application. When cured, it remains flexible making it ideal for environments that require flex such as keel joint repairs. Flexpoxy creates a superior bond to all epoxies, polyester resins, metals and wood. Comes in a unique self measuring, self mixing cartridge dispenser.

Pettit Trinidad SR Antifouling Paint with Slime Resistant

- Excellent for fiberglass, wood and steel boats.
- Utilizing a high copper load and slime resistant, Trinidad SR provides unprecedented resistance to all fouling.
- Its hard protective coating has excellent adhesion, and withstands the toughest abuse.
- Left in the water, it will provide years of dependable service.
- Use 120 thinner for brushing, rolling or clean-up. Use 121 thinner for spraying.

Pettit Unepoxy Standard Antifouling Paint

- It is a dependable antifouling paint formulated to provide outstanding protection at a very affordable price.
- Its durable, hard modified epoxy finish is able to withstand beaching, trailering and season long abuse.
- It provides excellent coverage and adhesion, and can be applied over most bottom paints.
- Suitable for all non-aluminum trailered boats.
- Use 120 thinner for brushing, rolling or clean-up. Use 121 thinner for spraying.

Pettit Unepoxy Plus Antifouling Paint

- Unepoxy Plus is a durable, hard modified epoxy antifoulant that offers more protection for your dollar.
- It dries to a hard finish that is able to withstand trailering, beaching, and season-long use.
- Excellent adhesion and can be applied over most previously applied bottom paints in good condition.
- With its high copper load, Unepoxy Plus offers more protection than standard hard epoxy paints.
- Use 120 thinner for brushing, rolling or clean-up. Use 121 thinner for spraying.

Pettit Vivid Antifouling Paint - Clean, Bright Colors

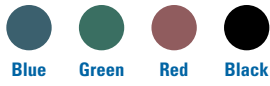

- Vivid's attributes go far beyond its beautiful vibrant colors, for it also provides excellent multi-season, dual biocide antifouling protection under all conditions.
- Vivid's new hybrid technology incorporates all the benefits of both ablative and hard paints in one superior product.
- Its hard, smooth surface withstands trailering and is easily burnished to a high performance super slick racing finish.
- Applied in thin coats using a 3/16" or less nap roller, Vivid resists build up and can be hauled and launched without loss of protection.
- When used over the recommended priming system Vivid can safely be used on aluminum hulls and outdrives.
- Use 120 thinner for brushing, rolling or clean-up. Use 121 thinner for spraying.

Pettit Alumacoat SR Antifouling Paint

- Slime resistant TBT and copper free-formula in clean, bright colors.
- Non-corrosive antifouling for underwater metals including aluminum.
- Contains PTFE to reduce friction keep underwater surfaces smooth and clean.
- Can safely be used on all aluminum hulls, outdrives and outboard motors in fresh, salt and brackish water.

Order No.	Mfg. No. / Description	Price
733697	(1160QT) White Quart	\$74.98 LQ

Pettit Alumaspray + Antifouling Paint

- An aerosol antifouling paint specifically designed for use on aluminum outdrives and outboard motors without the need for a barrier coat.
- Contains no TBT or copper compounds, and will not cause galvanic corrosion.
- Its self cleaning, copolymer finish washes away at a controlled rate when in contact with water.
- This process constantly exposes fresh biocides and eliminates paint build up.

Pettit EZ Poxy² Polyurethane Marine Topside Enamel Paint

- High-performance, two-part polyurethane marine paint without all of the costs and hassles associated with two-part enamels.
- EZ-poxy2 combines the added gloss, wear resistance and durability boaters are looking for in a two-part polyurethane enamel with the ease of application of a single part product.
- This revolutionary formula reduces the effects of brush strokes and is so forgiving; it's practically fool-proof.
- In fact, EZ-poxy2 is so innovative that it makes exact mixing ratios a thing of the past.
- Its added UV protection and gloss retention will keep your boat looking shiny and new for years to come.

Pettit Alumaprotect Aluminum Epoxy Primer

- A 2 part strontium chromate primer designed to form the ideal barrier coat over roughed bare aluminum.
- Alumaprotect provides maximum resistance to fresh or salt water, thus eliminating corrosion.
- This complete coating system resists water, industrial chemical fumes and very humid environments.
- Intended to be used as a primary coat over bare aluminum hulls and outdrives.
- Two coats are recommended over sandblasted aluminum.

Order No.	Mfg. No. / Description	Price
735174	(4400/4401.75) .75 Gallon	\$107.98 D

Pettit Protect High Build Epoxy Primer

- A heavy duty, two component, epoxy coating for use where maximum resistance to fresh or salt water is required.
- It reduces water absorption making it an excellent choice for osmotic blister prevention and repair.
- Its high-solids formula allows for quicker and easier application with fewer coats necessary for effective protection.
- Higher-solids equals 3 coat application instead of 6 needed by competitive products.
- It also offers dependable corrosion protection on all underwater metals.
- Use 97 Epoxy Thinner is needed.

Pettit Epoxy Thinner

- A strong, fairly fast evaporating thinner that allows two-part epoxies to flow out smoothly and yet flashes out fast enough to prevent sags.
- Use with Pettit Protect and Tie Coat Primer.

Order No.	Mfg. No. / Description	Price
736150	(97SQT) Quart	\$24.98 D

Pettit Flexpoxy - Flexible 2-Part Repair Epoxy

- Flexpoxy is a two-part epoxy resin that does not sag, run or shrink.
- Its thick formula allows it to fill large cavities in a single application.
- When cured, it remains flexible making it ideal for environments that require flex such as keel joint repairs.
- Flexpoxy creates a superior bond to all epoxies, polyester resins, metals and wood.
- It can be sanded, machined, cut, filed, planed, drilled, tapped or nailed making it perfect for filling, filleting, forming, fairing and fastening.
- This low odor formula is resistant to chemicals and is safe to use above and below the waterline.
- Flexpoxy can be molded and shaped during application and is easily tinted with paints and stains.
- Flexpoxy can be over coated by most paints and stains.

Order No.	Mfg. No. / Description	Price
737060	(7076CRT) 2:1 A/B Mix, 250 ml	\$25.98 D

736124	(185SQT) Quart	\$27.98 D

Pettit EZ-Fair - Epoxy Fairing Compound

- EZ-Fair is a lightweight, two-part epoxy putty designed for filling and smoothing surface imperfections above and below the waterline.
- The special resins used in EZ-Fair impart a high degree of water and chemical resistance to the product, making it an integral part of the Pettit Gelcoat Blister Repair System.
- In addition, EZ-Fair is the product of choice for fairing metal keels or any underwater surface.
- Use it for leveling uneven surfaces, filling gouges, scratches or other damage on fiberglass, wood or metal surfaces.
- It's excellent chemical and water resistance make it the ideal choice for repairing blistered gelcoat in an osmotic blister repair system.
- EZ-Fair is non-sagging and non-shrinking and sands to a smooth finish.

Premium Yacht Paint Solutions

Topside Finishes

Perfection®

A high-gloss, high-performance two-part polyurethane that combines a long lasting abrasion and chemical resistant finish with superb protection from the detrimental effects of UV rays. Its abrasion resistance makes it ideal for application to decks and gunwales. Perfection can be used anywhere above the true waterline on properly prepared fiberglass, wood, aluminum, steel and epoxy. The superb high-gloss characteristics, long-lasting color retention and durability makes Perfection the finest coating available.

Professional quality results are made easy with Perfection.

Interlux® Antifouling Range

Micron® Technology is the basis of all Micron Paints

- Micron is the original controlled-polishing antifouling, offering outstanding performance longevity with an extensive track record on fuel efficiencies
- Longest lasting, multi-season protection with the ability to haul and relaunch without repainting
- Controlled polishing means that it wears away like a bar of soap reducing paint build-up
- Becomes smoother with use, reducing drag and maximizing fuel savings

Micron® 99®

Self Polishing Copolymer with Advanced Biolux SPC Technology.

- Outstanding long lasting antifouling performance
- Self Polishing Copolymer technology delivers maximum protection even during stationary periods.
- Can be used in all water (Fresh, Brackish and Salt Water)
- For boats over 82 feet.

Blue YBC101

Navy YBC103

Black YBC106

Micron® 66®

Award-winning, self-polishing copolymer technology with Biolux® SPC.

- Outstanding antifouling performance in the harshest fouling conditions
- Top rated antifouling in independent tests
- Maximum protection even during stationary periods
- Not for use in fresh water or on aluminum

VC®17m

The original thin film antifouling paint that is formulated with fluoro microadditive to reduce friction and drag, for optimum speed and efficiencies through the water. Favored by professional sailing race teams & power boaters for over 15 years, VC 17m Extra is a hard, super smooth, racing finish that is super easy to maintain.

Red V107UKT

Blue V106UKIT

Original V105UKT

VC® Offshore

For racing sailing and performance power boats. VC Offshore will yield a hard, smooth, low friction surface that can be burnished to a very low profile. VC Offshore is suitable for use in fresh and salt water. Not for use on aluminum.

Red V117

Black V118

Blue V116

Ballplate Metallic Gray R3950

Pacifica® Plus

Copper Free, dual biocide antifouling paint.

- Contains Biolux® Slime-Blocking technology and Ecomea™ to control shell growth
- Ablative antifouling paint reduces build-up and friction
- Suitable for all substrates, including aluminum
- Reduced solvent emissions - VOC compliant
- Gray and black available in pints for brush application to outdrives and outboards

ACT

Best value ablative antifouling protection.

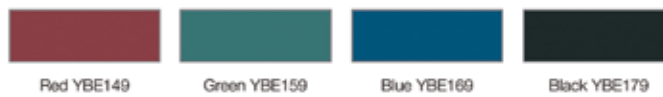

- Season to Season Ablative Antifouling eliminates paint build up and sanding
- Provides excellent protection in waters with moderate to heavy fouling
- Not for use on aluminum

Aqua-One Performance Ablative

Aqua-One is a water-based ablative antifouling that delivers strong protection for all areas.

- Powerful protection all season long
- Compatible with most antifouling paints for power and sail boats in all waters.
- Easy application and clean-up
- Not for use on aluminum

Fiberglass Bottomkote® NT

The Fiberglass Bottomkote NT Advantage:

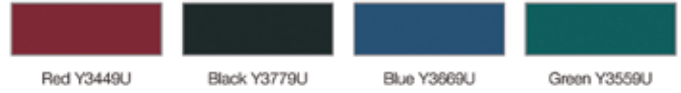

- NT (New Technology) – Optimizes the benefits of hard and ablative paints through a unique Dual Resin Approach
- Durable Coating – Prevents premature wear-through yet a slow polishing action minimizes unnecessary paint build-up
- Fast-Dry – So fast you can paint and launch in the same day!
- Universal – A cost effective choice for all power and sail boats and in all waters
- Not for use on aluminum.

Ultra-Kote

Long-term antifouling protection for medium to high fouling areas in a hard durable finish.

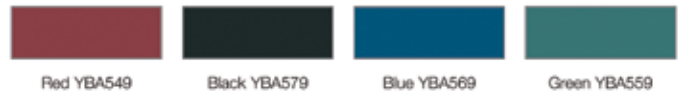

- Long lasting performance
- Durable finish – excellent color stability
- Low VOC – limits solvent emissions into the atmosphere
- Powerful antifouling protection
- Not for use on aluminum

Fiberglass Bottomkote® Aqua

A great performing, waterbased, low V.O.C. formulation.

- Water-based antifouling with advanced performance
- Smooth thin build antifouling that delivers advanced protection while reducing drag and coefficient of friction
- Use on new boats and inflatables with the Interlux Simple No Sand System
- No strong odor and easy clean up with soap and water
- Low VOC reduces solvent emissions
- Not for use on aluminum.

Note: All new Sea Ray and Meridian boats are delivered with Fiberglass Bottomkote Aqua.

Trilux® 33®

Trilux 33 offers brighter, cleaner colors, and is ideal for use on all traditional boat substrates including aluminum.

- Biolux® slime blocking technology reduces slime and increases antifouling performance

Trilux® 33® Aerosol

The best performance aerosol antifouling available, Trilux 33 Aerosol has been formulated specifically for aluminum outboards, outdrives and can be used on all underwater metals. Biolux Technology is used to control slime growth. Prime bare metal with rimocon.

InterProtect® Primers with Micro-Plates®

InterProtect primers with Micro-Plates can be used above and below waterline and on all substrates. Micro-Plate® Technology creates an overlapping barrier to help stop water migration through the coating reducing water migration through the epoxy to the hull surface which could lead to blistering.

InterProtect 2000E

- Fast drying, easy application
- Use as part of a no sand system
- The Industry standard for more than 20 years

InterProtect HS

- High solids two-part epoxy
- High solids for fewer coats to achieve film build
- Protect metals from rust and oxidation
- Reduced solvent emissions

Interlux® Wood Solutions

Cetol® Marine

Cetol Marine with Next Wave™ UV-absorbing technology is a durable translucent protective wood finish for use above the waterline on interior and exterior woods. Next Wave technology is a unique UV package of advanced Ultra Violet absorbers that provide greater protection, durability and longevity. Cetol Marine has excellent weathering properties and allows for the natural expansion and contraction of wood which prevents Cetol Marine from cracking. Cetol Marine is also micro-porous, allowing moisture to escape from the wood which will prevent blistering and flaking of the finish. Cetol Marine is an easy to apply, low maintenance alternative to wood oils and other wood treatments.

- **Cetol Marine** produces an attractive dark amber appearance on wood.
- **Cetol Marine Light** produces a lighter amber appearance on wood.
- **Cetol Marine Natural Teak** has a rich golden color on wood.
- **Cetol Marine Gloss** provides a high-gloss, hard-wearing, UV protection and is developed as a topcoat for Cetol Marine, Cetol Marine Light and Cetol Marine Natural Teak.

Cetol Marine IVA300 Cetol Marine Light IVA290 Cetol Marine Natural Teak IVA316 Cetol Marine Gloss IVA315

Perfection® Plus

A high performance, two-part clear polyurethane, Perfection Plus delivers the ultimate in performance longevity resistance. The chemical cure urethane formulation combines with a best-in-class UV and HALS package to offer outstanding chemical and abrasion resistance and superb gloss and gloss retention that lasts four times longer than conventional one-part varnishes.

Schooner® Gold

This product offers a higher film build per coat that allows both professional applicator and boat owners to achieve great results faster and in fewer coats. This 'thicker' varnish will require thinning, in most conditions, to achieve optimum flow. Schooner Gold has shown to out-perform other leading brands and will offer superb longevity and durability.

Schooner® 96

Combines the very best of classic varnish craftsmanship with the newest technology. Schooner Varnish contains ultra-violet filters to screen the sun's damaging rays for remarkable durability, excellent water resistance and silky application. Superior self-leveling property and a bright, clear, high-gloss finish with the traditional golden color.

Compass® Clear

Compass Clear is a highly durable one-part polyurethane gloss varnish that contains a unique combination of ultra-violet additives, HALS, surface stabilizers and antioxidants to ensure long-term gloss and clarity. Polyurethane resin adds incredible abrasion, chemical and water resistance. Superior leveling properties along with silky application allows you to achieve a professional, long lasting finish. Compass Clear is suitable for all internal and external woods, and can be applied directly to oily timber, such as teak.

Goldspar® Satin 60

A modified polyurethane, low luster varnish designed for application to interior wood surfaces. It produces a warm, rich satin sheen finish that resists scratches and stains and applies easily enough to yield truly professional results by either brush or spray. Goldspar Satin Varnish 60 is ideal anywhere a low luster finish is desired, such as cabin soles, cabinets, counters and tables.

Premium Teak Restorer

Cleans, restores and brings back the natural color of teak and other hardwoods. Gentle formula, does not bleach or damage surrounding fiberglass, wood, metals and painted surfaces. Contains Tenside cleaners, which are excellent at removing oil and dirt.

Premium Teak Oil

Traditional Scandinavian formula providing ultimate protection against the elements. Formulated with a rust inhibitors, protecting metal from rusting. Easy to apply, fast drying, warm golden color for exterior and interior use. Can be applied to damp or dry wood, for best results apply to dry wood.

Interlux Ultra-Kote® - Premium

- The highest copper content of all leading yacht antifouling paints.
- The new fast dry formula also allows you to paint and launch the same day.
- It is recommended for use where the fouling challenge is severe.
- Such as warm or tropical waters or in areas where the runoff from the aid causes higher algae and grass growth.

Order No.	Mfg. No. / Description	Price
405743	(Y2779N/1) Black Gallon	\$245.98 LQ

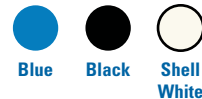

Interlux Fiberglass Bottomkote® Aqua Antifouling Paint

- Water-based antifouling with advanced performance.
- Smooth thin build antifouling that delivers advanced protection while reducing drag and coefficient of friction.
- Use on new boats and inflatables with the Interlux Simple No Sand System.
- No strong odor and easy clean up with soap and water.
- Low VOC reduces solvent emissions.
- Not for use on aluminum.

Interlux Super KL® with Slime Fighter Antifouling Paint

- A premium antifouling coating with a high copper loading and slime fighter added to combat slime and keep the bottom cleaner.
- It provides effective protection against all types of marine fouling including slime and is recommended for boats that are used in high fouling salt or fresh water areas, or which remain in the water for prolonged periods between haul outs.

Order No.	Mfg. No. / Description	Price
404796	(NK93b/1) Black Gallon	\$207.98 LQ

Interlux VC® 17m Extra with Biolux

- The original thin film antifouling paint that is formulated with fluoro microadditive to reduce friction and drag, for optimum speed and efficiencies through the water.
- A hard, super smooth, racing finish that is super easy to maintain.
- Biolux Technology blocks slime and improves antifouling performance.
- Great for use on inflatables.
- Quick drying for fast re-launch.
- Not for use on aluminum.

Interlux InterProtect® 2000E with Micro-Plates®

- An unique two-part epoxy coating developed to protect fiberglass hulls from water absorption, which can lead to osmotic blistering.
- Microplates create an overlapping barrier to help stop water migration through the coating.
- Can be used above and below the waterline as a universal primer for all surfaces and has proven itself to be an excellent primer for all metals.
- It also can be used as part of a no sand system.

Order No.	Mfg. No. / Description	Price
409163	(Y2000EKIT/1) Gray Gallon	\$109.98 E
409157	(Y2000EKIT/QT) Gray Quart	\$38.98 E

409166	(Y2002EKIT/QT) White Quart	\$42.98 E

Interlux InterProtect® HS with Micro-Plates®

- A versatile high solids, two-part epoxy, that can be used above and below the waterline as a primer for all substrates.
- As part of a gelcoat blister repair or prevention system, InterProtect HS uses the Micro-Plate Technology to substantially reduce water migration through the epoxy to the hull surface which could lead to blistering.
- Micro-Plates also provide protection from corrosion for metals.
- InterProtect HS is a high solids epoxy which means fewer coats to reach the desired film thickness.
- InterProtect HS also meets the most restrictive V.O.C. regulations and helps reduce solvent emissions into the environment.

Order No.	Mfg. No. / Description	Price
409190	(YPA423KIT/1) Gray Gallon Kit	\$127.98 E

Interlux Fiberglass No Sand Primer

- Designed to eliminate the need to sand fiberglass prior to applying antifouling paint.
- It can also be used on epoxy primers to improve the adhesion of antifouling paint.
- Fast drying.
- It can be used on polyester, vinyl ester and epoxy.
- Can be applied by brush or roller. Do not spray.

Order No.	Mfg. No. / Description	Price
409097	(YPA200/QT) Quart	\$37.98 E

Interlux Primocon® Underwater Primer

- An anti-corrosive primer for all underwater metal surfaces including hulls, running gear and the lower units of outboards and I/O's.
- It will provide an excellent barrier to reduce pitting caused by galvanic corrosion.
- Will not affect the color of antifouling paint.
- Can also be used as a conversion coating over unknown well-adhered antifouling paint to prevent cracking of new antifouling paint.

Order No.	Mfg. No. / Description	Price
409208	(YPA984/1) Gray Gallon	\$94.98 E
409210	(YPA984/QT) Gray Quart	\$31.98 E

Interlux Perfection® Plus Varnish

- A high performance, two-part clear polyurethane, Perfection Plus delivers the ultimate in performance longevity resistance.
- The chemical cure urethane formulation combines with a best-in-class UV and HALS package to offer outstanding chemical and abrasion resistance and superb gloss and gloss retention that lasts four times longer than conventional one-part varnishes.
- Can be applied directly to all woods, including oily timbers such as teak.

Order No.	Mfg. No. / Description	Price
408408	(YVA950KIT/QT) Clear, Quart	\$85.98 E

Interlux Primocon® Aerosol

- A non-bleeding, anti-corrosive primer that provides an excellent barrier on underwater metal surfaces, reducing galvanic corrosion.
- Use on underwater metal areas including aluminum outdrives and outboards, stainless steel, bronze props and shafts prior to application of Trilux Prop & Drive, Trilux 33 Aerosol or Trilux 33.
- Use at least one full can of primer per lower unit.

Order No.	Mfg. No. / Description	Price
409225	(YPA985n/16) 12 oz.	\$22.98 E

Interlux Schooner® Gold Varnish

- Offers a higher film build per coat that allows both professional applicator and boat owners to achieve great results faster and in fewer coats.
- Includes advanced UV Technology.
- Longest lasting one-part varnish.
- Traditional amber color.

Order No.	Mfg. No. / Description	Price
408612	(YVA500/QT) Quart	\$45.98 E
408624	(YVA500/PT) Pint	\$25.98 E

Interlux Interprime™ Wood Sealer

- Suitable for either interior and exterior use.
- It stops varnish from soaking into the wood and seals the grain.
- Recommended for sealing plywood to resist cracking and checking.

Order No.	Mfg. No. / Description	Price
408852	(Y1026/QT) Clear Quart	\$25.98 E

Interlux Goldspar® Satin Varnish

- A modified polyurethane, low luster varnish designed for application to interior wood surfaces.
- It produces a warm, rich satin sheen finish that resists scratches and stains.
- Applies easily enough to yield truly professional results by either brush or spray.
- Ideal for cabin interiors such as counters, cabinets and tables.
- Can also be used for home interior finishes such as bar tops, furniture and paneling.

Order No.	Mfg. No. / Description	Price
408547	(Y60/QT) Quart	\$31.98 E
408546	(Y60/PT) Pint	\$16.98 LQ

Interlux Schooner® Varnish

- Contains ultra-violet filters to screen the sun's damaging rays for remarkable durability.
- Excellent water resistance and silky application.
- Superior self-leveling property and a bright, clean, high gloss finish with the traditional golden color.

Order No.	Mfg. No. / Description	Price
408603	(Y96/QT) Quart	\$34.98 E

Interlux Original® Varnish

- A traditional spar varnish that combines ease of application with good gloss and durability which makes it an ideal choice for use on interior and exterior woodwork such as cabin trim, handrails, doors and coamings.

Order No.	Mfg. No. / Description	Price
408561	(Y90/QT) Quart	\$22.98 E

Interlux Seam Compound - Above Waterline Only

- Durable, tight sealing material designed to fill hull seams of wooden boats above the waterline.
- It remains pliable to allow for expansions and contractions of planks.
- Exhibits excellent adhesive qualities when applied over properly primed surfaces.
- Easily applied by putty knife.

Order No.	Mfg. No. / Description	Price
410579	(Y31/QT) White, Quart	\$45.98 E

Interlux Seam Compound - Below Waterline Only

- Designed to fill seams of wooden boat bottoms and used to fill keel joints that flex.
- A tried and proven performer which remains durable and flexible after immersion, to absorb expansion and contraction of planks.
- Exhibits excellent adhesive qualities when applied over properly primed surfaces.

Order No.	Mfg. No. / Description	Price

Interlux Interfill® 830 - Epoxy Fairing Compound

LIMITED QUANTITIES

- Available in both standard and fast cure versions, to provide maximum flexibility for application in a variety of conditions.
- It has extremely low density and is one of the lightest yacht epoxy fillers available in the marketplace.
- The high strength, waterproof formulation is very easy to sand using 80-180 grade paper.
- The best choice for profiling above and below the waterline on steel, aluminum and fiberglass/composite hulls.
- It can fill up to 2 cm in one application, without the risk of sagging/slumping.

Interlux Epiglass® HT9000 Epoxy Resin

LIMITED QUANTITIES

- High strength and durability.
- Can be used for blister repair, sheathing, laminating, filling, fairing and gluing.
- Easy sanding.
- Easy to use mix ratio 4:1.
- Solvent free and low odor ensuring a cleaner working environment.
- Improved workability to adapt to varying conditions.
- Low viscosity for ease of mixing and wet out.

EPOXY RESIN

Order No.	Mfg. No. / Description	Price
410744	(HT9000/1) Gallon	\$130.98 E
410756	(HT9000KIT/QT) Quart	\$48.98 LQ

410782	(HT9002/QT) Quart	\$52.98 E

Interlux Epiglass HT450 Filler Powder

LIMITED QUANTITIES

- It is formulated to create a lightweight, low-density filling and fairing compound when mixed with Epiglass HT9000 resin mix.
- Ideal for filling, fairing and coving work.
- Produces a white, easy to sand and shape mixture.
- It can be used above and below water.

Order No.	Mfg. No. / Description	Price
410807	(HT450/QT) Quart	\$15.98 LQ

Interlux Intergrip No Skid Compound

- A man-made plastic sphere additive for transforming decks into no-skid surfaces.
- Its regular shape diminishes the tendency to collect dirt.
- It has excellent non-slip properties.

Order No.	Mfg. No. / Description	Price
409790	(Y2398c/QT) Quart	\$38.98 E

Interlux Cetol® Marine - Wood Treatment

CETOL MARINE

- A durable, translucent protective wood finish for use above the waterline on interior and exterior woods.
- It is formulated with a special alkyd resin and high quality synthetic UV-absorbing pigments which shields wood against damaging UV rays.
- It produces an attractive dark amber appearance on wood.

Order No.	Mfg. No. / Description	Price
408888	(IVA300/QT) Quart	\$36.98 E

CETOL MARINE LIGHT

- A durable, translucent protective wood finish for use above the waterline on interior and exterior woods.
- It is formulated with a special alkyd resin and high quality synthetic UV-absorbing pigments which shields wood against damaging UV rays.
- Identical to the Cetol Marine but formulated with different pigments to produce a lighter amber appearance on wood.

Order No.	Mfg. No. / Description	Price
408876	(IVA290/QT) Quart	\$36.98 E

CETOL MARINE GLOSS

- A durable clear gloss protective wood finish, developed as a topcoat for Cetol Marine, Cetol Marine Light and Cetol Marine Natural Teak.
- Provides a high gloss, hard wearing, UV protection and an easy to clean finish.
- Do not use on decks.

Order No.	Mfg. No. / Description	Price
408890	(IVA315/QT) Quart	\$39.98 E

CETOL MARINE NATURAL TEAK

- A durable, translucent protective wood finish for use above the waterline on interior and exterior woods.
- It is formulated with a special alkyd resin and high quality synthetic UV-absorbing pigments which shields wood against damaging UV rays.
- A rich golden color that will enhance the natural beauty and grain of wood, offering the traditional classic look that every boat owner loves.

Interlux Fiberglass Surface Prep

- Low V.O.C. fiberglass surface preparation.
- Removes contamination, mold release agents, wax and amine blush.
- Clean previously painted surfaces before repainting topside finishes.
- Ideal for preparing inflatable boats for antifouling.

Order No.	Mfg. No. / Description	Price
409323	(YMA601V/QT) Quart	\$22.98 E

Interlux Interstrip - Paint Remover

- Interstrip 299E paint remover utilizes a new technology that delivers an effective paint remover system that does not require methylene chloride, a suspected human carcinogen.
- Safe for fiberglass surfaces and has a low odor.
- Its formulation incorporates special sealing agents that allow the stripper to stay wet longer, thereby lengthening working time.

Order No.	Mfg. No. / Description	Price
410352	(Y299E/1) Gallon	\$83.98 E
410364	(Y299E/QT) Quart	\$34.98 E

Interlux Fiberglass Solvent Wash

- Removes mold release agents, wax, oil and grease from the hulls of bare fiberglass boats.
- It is also effective in removing wax and silicone contamination from painted hull surfaces that being prepared for repainting with interspray Finish Coatings.
- An excellent parts clean up and multi-purpose wipe down solvent.

412013	(CL75044/5) Red 5 Gallon	\$296.00 D

International Paint Intertherm 891

- A one pack Oleoresinous Aluminum Coating.
- As a light reflective finish for cargo holds, pipes, etc.
- It is suitable for use on surfaces that are likely to reach dry heat temperatures of up to 485° F. This may be extended up to 600° F if the dry film thickness is reduced to 0.6 mils.

Order No.	Mfg. No. / Description	Price
412099	(HTA002) Aluminum	\$71.60 D

International Paint Interlac 800

- A one pack, high solids, low VOC, gloss silicone alkyd with excellent color and gloss retention.
- As an easily maintained cosmetic finish for above water areas.
- Use thinner 412063 (GTA007).

Order No.	Mfg. No. / Description	Price
412074	(800/Y999-1) Black	\$119.40 LQ
412077	(800/45566) Buff	\$73.57 LQ
412080	(800/87426) Gunmetal Gray	\$120.90 LQ

International Paint Intergard 264

- A two pack, self priming, surface tolerant epoxy with low semi-gloss finish.
- Exhibits excellent chemical and abrasion resistance.
- Low VOC.
- For cleaning, use thinner 412065 (GTA220).

Order No.	Mfg. No. / Description	Price
412094	(FPL274/5/A) Red 5 Gallon	\$431.00 D
412096	(FPJ034/5/A) Light Gray 5 Gallon	\$431.00 D
412097	(FPY999/5/A) Black 5 Gallon	\$431.00 D

International Paint Intertuf 262

- A surface tolerant, two pack epoxy primer.
- As an epoxy anticorrosive coating for use from Keel to Rail.
- Suitable for use with controlled cathodic protection.
- For cleaning, use thinner 412065 (GTA220) or GTA822.

Order No.	Mfg. No. / Description	Price
412083	(KHA302/1/A) Light Gray	\$63.45 D

Mascoat Marine - DTM (Thermal Insulating Coating)

- Mascoat Marine-DTM insulating coating is a water-based, one-part coating comprised of air filled ceramic and silica beads held in suspension by an acrylic binder.
- It applies like paint and is maintenance-free, providing thermal insulating and anti-condensation capabilities for shipboard construction.
- Currently, Mascoat Marine-DTM insulating coating is in use on over 2000 marine vessels from Alaska to Antarctica.
- This coating can replaced most blanket and foam insulation products, resulting in substantial reduction of weight and keeping the vessel within the new stringent marine codes and classifications.
- The coating employs the best water-based coating technology and contains no harmful elements.
- Unlike other insulation methods, Mascoat Marine-DTM bonds directly to the substrate or primer, leaving no room for corrosion to take hold.
- Direct bonding gives the coating the ability to insulate your vessel without degradation of the substrate for many years to come.
- By using Mascoat Marine-DTM coating system, you can rest assured that your vessel is protected and that the interior accommodations will be comfortable.
- Users of Mascoat Marine-DTM insulation coating have found that the coating replaces most conventional insulation methods.
- While yielding the same insulation capabilities, installing costing drastically less.
- Many vessel owners have saved up to 50% on total installed costs over conventional insulation.
- Best of all, the coating is extremely lightweight.
- This allows easy application around difficult areas such as stiffeners and other tight areas without adding excess weight.

Order No.	Mfg. No. / Description	Price
496517	(1101FGDTMWH) White 5 Gallon	\$463.98 B
496519	(1101FGDTMGRY) Gray 5 Gallon	\$463.98 B

Mascoat Sound Control - dB (Sound Damping Coating)

- Reduction of structure-borne noise and vibrations.
- Saves installation time compared to sound damping tiles.
- Reduce overall construction time-frame.
- Excellent vapor barrier.
- Keeps substrates viewable at all times.
- Protect personnel.
- Increase interior comfort.
- No risk of water entrapment.
- Lightweight compared to damping tiles.
- Meets IMO/SOLAS guidelines.
- Easily repairable if needed.

496522	(2101FGDBWHT) White 5 Gallon	\$465.98 B
496524	(2101FGDBGRY) Gray 5 Gallon	\$465.98 B

Tuff-Coat Marine Non-Skid Coating

- Ideal for commercial and recreational vessels or docks/ramps.
- Superior durability and flexibility.
- Non-abrasive, recycled rubber aggregate for traction and comfort in any weather.
- Comes in 1 gallon cans or 5 gallon pails.
- Made in the USA.

KEY FEATURES

- Water-based/no smell/water clean up.
- Rubber Aggregate/non-abrasive.
- Roll or Spray on application.
- 21 Standard Colors.
- Single Component/No Mixing.
- Chemical & UV Resistant.
- Flexible.
- Non-Flammable.
- No shipping restrictions.
- Extremely Durable.
- User Friendly.

ADHERES TO:

- Wood.
- Steel.
- Aluminum.
- Fiberglass.
- Gel Coat.
- Concrete.
- Painted Surfaces.

AWLGRIP® Awlwood MA - Exterior Clears System

- High building, fast curing formulation allowing multiple applications per day reducing work time.
- Applicable over a wide range of temperatures and humidity by various methods so the same great result every time.
- Remains highly flexible throughout lifetime of system which allows natural substrate movement whilst giving excellent toughness and abrasion resistance.
- Use of the full system gives a synergistic effect resulting in extended performance retaining the same gloss, DOI and natural appearance as first application.

AWLGRIP® Awlmix® Color Matching System

- Awlcraft 2000 topcoat colors, including special requests for custom colors.
- We request any new formulation from Awlgrip on your behalf and we are able to mix and match most existing formulations.
- By using the Awlmix software provided by Awlgrip, you can be assured we will always have the most current formulations with an extensive choice of colors created by world-wide demand from builders and boat owners.
- The number of formulations in this database grows every month and the input from Awlgrip color chemists is crucial, as each formulation entered is thoroughly reviewed and quality controlled to provide the formulation with the greatest consistency for our day to day operation.
- We can access this information 24/7, all in order to speed up delivery to you.

What will Awlmix do for you?

- Improved service through an added choice of color selection.
- Greater ability to meet increasing customer demand of custom made colors, especially for the OEM or multi-production market.
- Capability to match 48 colors on the Awlcraft 2000 metallic color card.
- Opportunity to provide the color that your customer needs.
- Awlgrip continues to be the premium choice of topsides finishes world-wide.
- Using the Awlmix system to blend Awlgrip and Awlcraft 2000 topcoat colors on site shortens the lead time. Color access is now far beyond the traditional yacht and aerospace paint supplier.
- All colors will be shipped from our Clearwater or Norwich facilities with the corresponding shipping times and fees.
- Please supply color code from chart when ordering.

AWLGRIP® Awlprep Surface Cleaner

- A fast evaporating surface cleaner used to wipe down final primed or topcoated surfaces before and after sanding.
- A mild surface cleaner that will remove hand oils, light grease and other light surface contaminants.
- Using the Two Cloth Method wipe down with Awlprep T0008 before and after sanding primers, fillers and topcoats.
- It has a "drying" effect which removes latent moisture from the surface, which can cause a gloss finish to come out flat.

Order No.	Mfg. No. / Description	Price

AWLGRIP® Brushing Activator/Reducer for Awlbrite Clear

- A special blend of solvents and additives which is a required part of the Awlbrite Clear mix.
- A0031 contains additives which stabilize the pot life of the mixture and initiate cure of the product.

Order No.	Mfg. No. / Description	Price
508183	(A0031/1PTUS) Pint	\$41.98 M

AWLGRIP® Awlcraft SE Blending Solvent

- For use with repairing an Awlcraft SE Topcoat.

Order No.	Mfg. No. / Description	Price
511110	(T0195/1QTUS) Quart	\$124.98 J

AWLGRIP® Alodine 1201 Chrome Conversion Coating

- Chrome conversion coating for aluminum.
- Alodine 1201 is a non-flammable, chromic acid based, coating chemical that will produce a chrome conversion coating on aluminum and its alloys.
- The coating formed by Alodine 1201 is gold to tan in color and it becomes a part of the aluminum surface.
- This chrome conversion coating provides an excellent substrate for paint adhesion and corrosion resistance.
- This product can be used at full strength; no dilution is necessary.
- Apply Alodine 1201 to a surface that has been cleaned with Alumiprep 33.

Order No.	Mfg. No. / Description	Price
508032	(73003/1GLUS) Gallon	\$126.98 LQ

AWLGRIP® High Build Epoxy Primer

- D9002 has slightly better anti-corrosive characteristics than D8002.
- It sands well, but has a very hard film.
- Excellent as the first product applied over a base primer in fairing projects.
- It's hard film prevents sand troughs eliminating the need to re-primer or re-prep in those areas.
- Slow drying, but can be recoated with itself in four hours.
- Spray application only - requires pressure feed equipment.
- For use above waterline only.
- Mix ratio 1:1.

Order No.	Mfg. No. / Description	Price
508501	(D8002/1GLUS) Off-White Base Gallon	\$187.98 J
508513	(D8002/1QTUS) Off-White Base Quart	\$62.98 J

508359	(D3002/1QTUS) Converter Quart	\$59.98 J

AWLGRIP® Awlprep 400 Slow Evaporating Wipe Down Solvent

- General purpose surface cleaner which evaporates five times slower than T0008.
- Use to wipe down final primed or topcoated surfaces before and after sanding.
- Will remove hand oils, light grease and other light surface contaminants.
- Use the Two Cloth Method to apply and remove the T0170.
- The slower evaporation rate of T0170 allows for larger areas to be cleaned in hot weather using the two cloth method without creating wipe marks.
- Also excellent for removing tape residue.

Order No.	Mfg. No. / Description	Price
511077	(T0170/1GLUS) Gallon	\$61.98 J

AWLGRIP® Awlprep Plus Wax and Grease Remover

- A medium fast evaporating, strong, solvent designed to remove waxes, oils and greases commonly found on painted surfaces, new or aged gelcoat, aluminum, or steel.
- Use before and after sanding the substrate prior to priming.

Order No.	Mfg. No. / Description	Price
511041	(T0115/1GLUS) Gallon	\$73.98 J

AWLGRIP® 545 Anti-Corrosive Epoxy Primer

- A two component epoxy primer with outstanding corrosion and adhesion properties for steel, aluminum, wood and fiberglass substrates.
- Used to seal surfacing primers before applying topcoats.
- It may be applied by spray, brush or roller and may be used above or below the waterline.
- 545 has a relatively low build, 2 to 3 mils DFT and is slow drying - requires overnight cure to recoat.
- Reduce with T0006 to spray. Reduce with T0031 for brush/roller application.
- 545 can be accelerated with Cold Cure (M3066).
- Gray (D1001) rolls/brushes better than white.
- Mix ratio 1:1.

Order No.	Mfg. No. / Description	Price
508260	(D1001/1GLUS) Gray Base Gallon	\$156.98 J
508272	(D1001/1QTUS) Gray Base Quart	\$51.98 J
508486	(D8001/1GLUS) White Base Gallon	\$169.98 J
508498	(D8001/1QTUS) White Base Quart	\$56.98 J
508323	(D3001/1GLUS) Converter Gallon	\$145.98 J
508335	(D3001/1QTUS) Converter Quart	\$48.98 J

AWLGRIP® Awlquik Epoxy Primer/Surfacer

- An excellent adhesion to properly prepared aluminum, fiberglass or wood.
- It is a fast dry/fast recoat material that sands very well.
- Easy to apply by brush, roller or spray.
- It is reduced with T0006 for spray or T0031 for brush/roller.
- For use above waterline only.
- Water resistance is greatly improved when sealed with 545 Epoxy Primer before topcoating.
- Mix ratio 1:1.

AWLGRIP® Hullgard Extra Epoxy Primer

- Hullgard Extra Epoxy Primer is a holding primer, used as a base for subsequent fairing.
- It offers superb adhesion to properly prepared fiberglass, steel, aluminum and wood.
- For use above and below the waterline.
- Recoatable after 6 months without sanding.

Order No.	Mfg. No. / Description		Price
508432	(D6120/1GLUS) White Base	Gallon	\$173.98 J
508407	(D3730/1QTUS) Converter	Quart	\$44.98 J

AWLGRIP® Max Cor CF Primer

- A high solids two component anti-corrosive, chromate-free epoxy primer for aluminum and steel with excellent chemical and solvent resistance.
- Based on 'Controlled Fusion' (CF) technology, a unique chemical system that allows extended re-coat times, removes the need for sanding prior to applying the next coat and also gives excellent substrate adhesion.
- This technology eliminates the requirement for high hazard chemicals and ensures a tightly fused intercoat layer between the CF-based coating and the next applied coat.
- For above the waterline only.

Order No.	Mfg. No. / Description		Price
508410	(R4330/1GLUS) Base	Gallon	\$312.98 H
508395	(R3330/1HGUS) Converter	1/2 Gallon	\$120.98 J

MAX COR CF 2K AEROSOL

- Innovative technology has allowed the two-component Max Cor CF paint to be dispersed in an aerosol, whilst greatly exceeding standard spray paint cans in terms of performance and quality.
- The Max Cor CF aerosol is ideal for repairs and hard to reach areas where a fast and effective solution is required.

Order No.	Mfg. No. / Description		Price
508408	(S4010/250MLU) 250ml Aerosol		\$56.98 LQ

AWLGRIP® Wash Primer CF

- A chromate-free etch primer, based on 'Controlled Fusion' technology.
- Allows extended re-coat times, removes the need for sanding prior to applying the next coat and also gives excellent substrate adhesion.
- This technology eliminates the requirement for high hazard chemicals and ensures a tightly fused intercoat layer between the CF-based coating and the next applied coat.
- For use above the waterline only.

508440	(D6600/1QTUS) Yellow Base	Quart	\$62.98 J
508390	(D3300/1QTUS) Converter	Quart	\$41.98 J

AWLGRIP® Zinc Chromate Wash Primer

- Designed to promote adhesion by uniformly etching the aluminum, steel or anodized aluminum substrate.
- Not to be used below the waterline.
- Recoat after a 30 minute to 6 hour cure time.
- Mix ration 1:1.

Order No.	Mfg. No. / Description		Price
510203	(G9072/1GLUS) Yellow Base	Gallon	\$169.98 LQ
509806	(G3014/1GLUS) Converter	Gallon	\$157.98 LQ

AWLGRIP® 321 HS Undercoat

- Low VOC - Compliant under all global legislation.
- The ideal base for Awlgrip and Awlcraft topcoats allowing you to achieve the ultimate finish.
- 1 coat application - reduces labor costs and work cycle time.
- Excellent adhesion to all substrates.
- Easy sand finish - Less time needed to achieve optimum substrate for topcoats.

Order No.	Mfg. No. / Description		Price
508391	(R1100/1GLUS) Grey Base	Gallon	\$175.98 J

AWLGRIP® Awlfair L.W. Fairing Compound

- A premium, epoxy trowelable fairing compound used for fairing, leveling and smoothing surface imperfections caused by gouges, pitting, dents or seams.
- Super smooth finish and easy sanding.
- Suitable for manual and automatic mixing.
- May be used above or below the waterline.

Order No.	Mfg. No. / Description		Price

508484	(D7222/1QTUS) Red Converter - Fast	Quart	\$72.98 J

AWLGRIP® Sprayable Fairing Compound

- A two component epoxy filler with excellent sag resistance, excellent film build capability and is easy to sand.
- When unreduced it can be applied by trowel to small nicks and pinholes.
- Use spray application only - requires pressure feed equipment.
- Reduce with T0006.
- For use above waterline only.
- Heavy film may have to cure 3-4 days before hard enough to sand.
- Use for full panels only - not for spot repairs.
- Mix ration 1:1.

AWLGRIP® Flattening Agent

- Flattening agent reduces the gloss of Awlgrip and Awlcraft 2000 Topcoats to a flat or semi-gloss finish.
- Preferred application is by spray.
- Roller application will provide more uniform gloss than brushing.
- Not recommended for application to large expanses of surface as unequal gloss and appearance may result.

Order No.	Mfg. No. / Description	Price
509781	(G3013/1GLUS) Gallon	\$203.98 J
509793	(G3013/1QTUS) Quart	\$67.98 J

AWLGRIP® Crater-X Anti-Cratering Solution

- An additive developed for use with AWLGRIP and AWLCRAFT 2000 Topcoats to prevent cratering, crawling, and fisheyes caused by minor surface contamination.
- Crater-X alters the surface tension of the coating improving flow and leveling.

Order No.	Mfg. No. / Description	Price
510708	(M1017/1PTUS) Pint	\$86.98 J

AWLGRIP® Griptex Non-Skid Additive

- A polymer bead aggregate used to provide non-skid deck and step areas when mixed with any Awlgrip topcoat.
- Can be applied by spray.

Order No.	Mfg. No. / Description	Price
508070	(73012/1GLAL) Fine Grit Gallon	\$166.98 M
508068	(73012/1QTAL) Fine Grit Quart	\$57.98 M

AWLGRIP® Awlstar Gold Label Antifouling

- Unique cleaning mechanism prevents permanent attachment of slime and all other types of fouling organisms.
- Eliminates the need to dive and scrub.
- Excellent static fouling protection.
- Tin-free.
- It is recommended for use where extended dry-docking intervals are required.
- Self polishing surface "ablates" away at a controlled rate that reduces the drag on the underwater hull and increases speed.
- Ideal for use where serious fouling conditions are encountered.
- For use below the waterline only on fiberglass, steel or wood hulls.
- DO NOT USE ON ALUMINUM.

Order No.	Mfg. No. / Description	Price
508222	(BP531/1GLUS) Light Blue Gallon	\$389.98 LQ

AWLGRIP® Pro-Cure Accelerator

- A specialist accelerator used to speed up dry and cure times of Awlgrip and Awlcraft 2000 Topcoats.
- Do not use in primers.

Order No.	Mfg. No. / Description	Price
508107	(73014/20ZUS) Pro-Cure X98 Accelerator 2 oz.	\$25.98 M

Marpro Color Matched Engine Spray Paint

- Easy to use aerosols deliver professional results every time.
- Ideal for entire outboard and sterndrive reconditioning or touch up!
- Acrylic lacquer formula for a long lasting glossy base coat marine finish.
- It also protects with UV inhibitors!
- Excellent solvent, gasoline and wear resistance.
- Meet VOC requirements.
- 12 oz. canister.
- To achieve the finest deep gloss finish available use Marpro Clear Coat 6-6995 as the final coat.
- Price per can.

Preval Lightweight Electric Compressor - 1/6th Horsepower

**Includes:
Auto Shutoff and
Regulator**

- Our portable, lightweight electric compressor delivers quiet, consistent air pressure up to 60 psi to create continuous spray with the vFan Airbrush, both in and outside the shop.
- 1/6th horsepower.
- Delivers up to 60 psi operating pressure. 5 CFM at 20 psi.
- Runs on 120 volts (60 Hz, 1.5 amps - single phase).
- No oil required, piston powered.
- Comes with 6' air hose for airbrush.
- In addition, the automatic shutoff function enhances the unit's energy-efficiency and operating safety.

Order No.	Mfg. No. / Description	Price
556212	(0923)	\$449.98 LQ

Preval vFan Portable Airbrush System Kit

- Kit includes:
 - (1) vFan Airbrush with .9 mm fan air cap & .9 mm detail air cap.
 - (2) Cans of 150 Feet of Energy.
 - (3) Product containers with full assembly.
- (1) 6' long air hose.
- (1) Extra .9 mm spray needle.
- (1) Pressure tank regulator for 150 feet of energy.
- Additional dip tubes and accessories.
- The vFan Portable Airbrush is an all-in-one touch-up system for precision painting, surface prep, touch-ups and curing - anywhere and anytime.
- Our siphon-fed, dual-action stainless steel and brass vFan airbrush delivers professional results with a silent pressurized can compressor that fits in your pocket: 150 Feet of Energy.
- The vFan sprays: Gel coats, Clear coats, Water based paints, Solvent based paints, Oil based paints, Latex paints and over 2,000 formulas.
- Protected against all solvents.
- Includes a 1 year warranty.

Preval 150 Feet of Energy (Portable Compressor Unit)

- Preval's 150 Feet of Energy is a 2-in-1 pocket compressor and duster.
- Each unit delivers 15 - 40 square feet of paint coverage and with enough cubic feet per minute to deliver a perfect finish using Automotive paints, laquers, urethanes, latex, clear coat, solvent based paints and more.
- 150 Feet of Energy also works as a powerful air duster to blow out hard-to-reach spaces and reduce cleanup times.
- Get 5x the spray time with our Energy Disbursement Unit, Pressure Regulator is sold separately.

Order No.	Mfg. No. / Description	Price
556222	(0168) 7 oz.	\$8.98 LQ

Preval Energy Disbursement Unit

- The Preval Energy Disbursement Unit (EDU) insulates the 150 feet of Energy unit at a consistent temperature to deliver a long lasting, more continuous spray.
- This innovation gives you five times the spray duration with the 150 feet of Energy.
- The way it works is simple: just fill half the EDU with room temperature water, feed the air hose through the lid and place the 150 feet of Energy unit inside, turned on, secure the lid.

Order No.	Mfg. No. / Description	Price
556216	(0960)	\$25.98 LQ

Preval Touch-up Jars - 6 Pack, 3 oz.

- These Touch-up Jars are solvent-proof and ideal for multi-color applications.
- Storing is now even easier, and each touch-up jar comes with its own label.
- Individual safety caps and small dip tubes are included.
- Use with the vFan is compatible however a separate dip tube size is required.

Order No.	Mfg. No. / Description	Price
556220	(0271) 6 Pack, 3 oz.	\$14.98 LQ

Preval Plastic Jars - 12 Pack, 3 oz.

- This bulk pack of 3 oz. plastic paint jars for the vFan Airbrush includes a full siphon, dip tubes and feed assembly.

Order No.	Mfg. No. / Description	Price
556214	(0955) 12 Pack, 3 oz.	\$11.98 LQ

The Preval Sprayer System (Portable)

556209

556196

	Power Capacity for:
Gel Coat	2 - 6 oz.
Oil and Alkyd Base Paint	6 - 9 oz.
Varnish and Enamel	9 - 12 oz.
Model Lacquer	12 - 16 oz.

- It's disposable, recyclable, easy to clean and, best of all, no compressor is needed.
- The Preval Sprayer's patented venturri vacuum process pulls liquid from any compatible, removable and refillable container and delivers a professional-grade spray stream to virtually any surface.
- Easy replacement and cleanup with interchangeable and disposable parts.
- Store media in containers for easy reuse.
- Professional-grade finish.

Order No.	Mfg. No. / Description	Price

Preval vGrip Universal Handle

- The vGrip Universal Handle is a 2-in-1 gun handle and ergonomic trigger that snaps onto the Preval Sprayer with ease.
- It also attaches to most any other standard aerosol can.

Order No.	Mfg. No. / Description	Price
556224	(3002)	\$7.98 H

3M Accuspray™ Spray Gun Model HG18

- The HG18 trigger is wider so it is more comfortable.
- We have shortened the reach to make the pull easier.
- An improved air valve gives users more precise control.
- Plus, we've added a reinforcing washer to the air fitting to prevent over tightening from damaging the gun body.
- And speaking of the gun body, there is now more internal reinforcement - so it can survive accidental abuse.
- We've even added a gray body panel, so technicians can easily spot their primer gun.

3M Marine PPS™ Mini-Cup Intro Kit

- An unique, closed paint system which eliminates the need for traditional mixing cups and paint strainers.
- Now, paint can be mixed and sprayed out of the same PPS liner with a lid and built-in filter.
- Designed adapters allow painters to use the PPS system with virtually any spray gun.
- A key advantage of this closed system is that it enables a painter's spray gun to function at any angle, even upside down!
- The liner, lid and built-in filter are all disposable, leaving only the adapter and spray gun to be cleaned.
- Includes: 2 each PPS Mini Cups and Collars, 50 PPS Mini Lids and Liners, 20 PPS Plugs, 2 PPS Film Inserts and 1 dispenser.

Order No.	Mfg. No. / Description	Price
886765	(16113)	\$328.98 H

3M Filter Bag for Orbital Sanders

- Used on Random Orbital Sanders with Self-Generated Vacuum to collect sanding dust.
- Eliminates the need for vacuum hose which improves operator ease of use.
- Use with 3M Filter Bag Adapter to attach bag to sander.
- HEPA rated.

Order No.	Mfg. No. / Description	Price
886929	(20452) Large	\$6.98 H

3M Vacuum Hose

- A red vacuum hose used to properly connect 3M Random Orbital and Orbital Sanders to a vacuum system for superb performance.
- 1" inside diameter. 6' long.

Order No.	Mfg. No. / Description	Price
886941	(28301)	\$48.98 H

3M Vacuum Bag Cover

- Dimensions: 20" x 9"
- Holds and protects paper 3M Vacuum Bag Inserts.

Order No.	Mfg. No. / Description	Price
886943	(28303)	\$30.98 H

3M Vacuum Bag Inserts

- Paper vacuum bag used to collect sanding dust when using a SGV Orbital or ROS.
- Connects to 1" vacuum hose (28301) with Adapter (28302).
- Fits inside cloth bag cover (28303).

Order No.	Mfg. No. / Description	Price
886960	(20338)	\$4.05 H

3M Vacuum Hose Adapter

- Used to connect 1" external hose thread vacuum hose to paper vacuum bag and cloth cover bag.

Order No.	Mfg. No. / Description	Price
886942	(28302)	\$4.71 H

3M Pistol Grip Disc Sander

- A lightweight sander for spot duty sanding and finishing applications.
- Excellent balance and generates less noise and vibration than other disc sanders.
- Dual mount feature allows user to switch between direct mount, which provides maximum control, and collet mount, which extends the reach of the tool.
- Use with Roloc Disc Assemblies: 2" (5539) or 3" (5540).

Order No.	Mfg. No. / Description	Price
886910	(28547) Tool Diameter: 3"	\$392.98 H

3M Roloc™ Disc Pad Assemblies

- Hard rubber backup provides firm support for 3M Roloc Abrasive Discs.
- Pad has a 1/4-20 INT thread which allows it to be mounted directly to tools with 1/4-20 EXT threaded shafts.
- Includes: Disc pad, shaft and adaptor.
- Sold 10 per case.

Order No.	Mfg. No. / Description	Price
853111	(05539) Diameter 2"	\$33.98 H
853110	(05540) Diameter 3"	\$43.98 H

3M Cubitron™ II Fibre Roloc™ Discs

- 3M Precision-Shaped Grain (PSG) maintains super-sharp points that cut exceptionally fast with less pressure.
- Disc life is significantly longer, completing more vehicle parts per disc and requiring fewer disc changes.
- Triangular-shaped ceramic grain wears evenly, runs cool, and optimizes mineral breakdown.
- Sold 15 discs per box.

Order No.	Mfg. No. / Description	Price
853120	(33377) Diameter 2" 36+ Grade	\$40.98 H
853123	(33379) Diameter 2" 60+ Grade	\$39.98 H
853130	(33389) Diameter 3" 36+ Grade	\$48.98 H
853133	(33391) Diameter 3" 60+ Grade	\$47.98 H

3M Green Corps™ Roloc™ Discs

- Generally used for hard-to-reach areas in paint, rust and weld removal, these discs have the versatility of the Roloc attachment system with the premium quality of 3M Green Corps brand.
- Green in color with a durable cloth backing.
- Fits any standard 1/4" drill or air tool.
- Sold 25 discs per box.

Order No.	Mfg. No. / Description	Price
853085	(01397) Diameter 2" 36 Grade	\$61.98 H
853108	(01408) Diameter 3" 24 Grade	\$76.98 H
853095	(01407) Diameter 3" 36 Grade	\$72.98 H
853083	(01406) Diameter 3" 50 Grade	\$67.98 H

3M Scotch-Brite™ Roloc™ Surface Conditioning Discs

- Use for cleaning and finishing on all metals for removal of light rust, oxides and coatings.
- They combined with the quick "1/2 turn on, 1/2 turn off" Roloc disc fastening system.
- The coarse grade (brown) equates with a coated abrasive grit of 80 to 100 and medium (maroon) 100 to 120 grit.
- Sold 25 discs per box.

Order No.	Mfg. No. / Description	Price
855105	(07480) Diameter 2" Coarse	\$49.98 H
855106	(07481) Diameter 2" Medium	\$49.98 H
853080	(07485) Diameter 3" Coarse	\$95.98 H
853081	(07486) Diameter 3" Medium	\$95.98 H

3M Rubber Sanding Block

3M

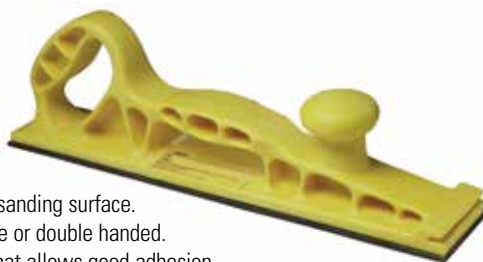

- A pliable rubber block which holds the sandpaper securely during wet or dry sanding operations.
- Uses a 2-3/4" x 9" sheet.
- Dimensions: 2-3/4" x 5".

Order No.	Mfg. No. / Description	Price
854732	(05519)	\$19.98 H

3M Stikit™ Hand File Board

3M

- Sturdy design that provides a non-twisting, flat sanding surface.
- Can be used single or double handed.
- Has a vinyl face that allows good adhesion and release when used with Stikit sheets.
- Dimensions: 2-3/4" x 16".

Order No.	Mfg. No. / Description	Price
853615	(05444)	\$79.98 H

3M Three-M-ite® Elek-Tro-Cut® Cloth Utility Rolls

3M

- The aluminum oxide abrasive is glue bonded to a J Weight cloth backing.
- The J Weight backing provides excellent durability, even when rolled, twisted or folded.
- Use for general purpose sanding; cleaning metals prior to welding; blending and repairing metal finishes; fine sanding and polishing applications; removing rust, scale and contaminants; deburring operations by hand or by machine; surface preparation for paints and coatings.
- Primarily used on metal in both production and maintenance applications.
- Also used for general purpose work on ferrous and non-ferrous metals.
- 1" W x 50 yds.

Order No.	Mfg. No. / Description	Price
855001	(05002) 320 Grade	\$64.98 H
855037	(05006) 180 Grade	\$76.98 H
855051	(05010) 80 Grade	\$78.98 H

3M Scotch-Brite™ General Purpose Scouring Pad

3M

- Use for everyday cleaning of most cooking utensils and equipment.
- Scours 2 to 3 times faster and lasts 2 to 3 times longer than comparable pads.
- Non-rusting and resilient, this synthetic pad is an ideal replacement for steel wool or stainless steel scrubbers.
- Dimensions: 6" x 9".

Order No.	Mfg. No. / Description	Price
855080	(08293)	\$1.30 H

3M Stikit™ Soft Hand Block

3M

- Soft molded foam block with easy release vinyl face.
- Use with Stikit Sheet-Rolls 2-3/4" wide or abrasives sheets 2-3/4" x 5" for leveling of repair area or following contours.
- Dimensions: 2-3/4" x 5".

Order No.	Mfg. No. / Description	Price
854744	(05442)	\$33.98 H

3M Stikit™ Hand Block

3M

- Made of a sturdy, durable, high strength material.
- These blocks have an embossed rubber face which allows good adhesion for Stikit Sheet-Rolls and Stikit Sheets.
- Dimensions: 2-3/4" x 7-3/4".

Order No.	Mfg. No. / Description	Price
854756	(05441)	\$42.98 H

3M Scotch-Brite™ Hand Pads

3M

- Dimensions: 6" x 9".
- Sold 20 pads per box.

LIGHT DUTY CLEANSING PAD

- Pad has fine mineral for very light cleaning.
- Use with liquid detergents for wax mold deflashing, highlighting and top coat rubbing of wood, cleaning of porcelain, stainless steel, chrome, painted surfaces and glass.

Order No.	Mfg. No. / Description	Price
855087	(051131-07445)	\$39.98 H

GENERAL PURPOSE HAND PAD

- For scuffing before applying paint and primer-surfacer.
- Also used for used car reconditioning. cleaning upholstery, headlines and door pads, chrome and white wall tires.
- Rinses clean and does not rust.
- Can be used over and over again.

Order No.	Mfg. No. / Description	Price
855099	(051131-07447)	\$39.98 H

ULTRA FINE HAND PAD

- Use ultra fine hand pad for light cleaning, finishing of metal, plastic, composite and wood surfaces.
- For final sanding of primer-surfacer.
- Rinses clean, will not rust and can be used over and over again.

Lifesafe ScrimTac Sail Emergency Repair Tape

- An essential on board emergency repair tape.
- Designed to allow for quick emergency repairs by removing protective liner to expose aggressive quick stick UV resistant acrylic adhesive supported by an extremely strong scrim reinforced carrier.
- Formulated to withstand extreme conditions while maintaining suppleness and impermeability.
- Adheres to most materials used in the manufacturing of sails.
- To achieve maximum repair benefits, laminate the ScrimTac Tape both top and bottom on the area of sail being repaired.

Order No. Mfg. No. / Description Price
228211 (RE1163) 2" x 10 yds. **\$24.98** H

Lifesafe Boat Cover Reinforcement and Repair Tape

- An ideal way to prolong the life of a boat cover, this tape adds strength and tear-resistance along seams, stress points, creases and corners.
- Resists stretching, wrinkling and tearing.
- Use it as extra padding on stress points around windshields or trolling motors.
- Also great for bimini tops, sails, canvas awning, and pool covers.

Order No. Mfg. No. / Description Price
228203 (RE1136) 8-3/4" x 10' **\$44.98** LQ

Handi-Man Self-Bonding Rigging and Insulating Tape

- Rigging tape.
- Shrinks to a waterproof seal as you wrap.
- Remove cleanly, no solvents needed.
- Leaves no residue.
- Water and ozone resistant.
- Adheres to itself when stretched.
- Excellent insulator against harsh environments.
- 1" x 10'.

Order No. Mfg. No. / Description Price
731515 (960027) Black **\$8.98** H
731520 (960028) White **\$8.98** H

Lifesafe Super Seal Emergency Repair Tape

- Emergency repairs, stops leaks, forms solid rubber wrap.
- Strips clean, leaves no messy adhesive or residue.
- Holds 100 psi at 220° F.
- Works wet, dry, greasy or dirty.
- Shrinks about 3% to form an airtight, waterproof seal.

Order No. Mfg. No. / Description Price
228270 (RE3869) 1" x 16' **\$14.98** H

Lifesafe Sail Patch Repair Tape

- Super clear U.V. stabilized.
- Excellent resistance to tearing in any direction, very aggressive adhesive, works on damp sails.
- Transparent color suitable for any sail.
- Tape is light weight and flexible.

Order No. Mfg. No. / Description Price
228243 (RE3843) 3" x 15' **\$18.98** H

Lifesafe Mastboot Tape

- Mastboot installs without un-stepping the mast.
- It protects against moisture by bonding itself into a solid piece of rubber.
- It conforms to irregular surfaces and leaves no sticky residue.

Order No. Mfg. No. / Description Price
228297 (RE3940) 4" x 40" **\$20.98** LQ

3M Scotchrap™ All-Weather Corrosion Protection Tape

- This 20 mil polyvinyl chloride (PVC) tape with a high-tack adhesive provides a corrosion- and impact-resistant seal for all-weather protection of metal piping systems above and below ground.
- This tape applies over a wide temperature range and is resistant to impact, abrasion and punctures.

Order No. Mfg. No. / Description Price
005238 (054007-42807) 2" x 100' **\$43.98** B

3M Scotch® Shipping Packaging Tape - 3750

- Strong conformable film backing and hot melt synthetic rubber-resin adhesive system provides a consistent uniform seal.
- Resists center seam splitting, assures reliable closures.
- Seals out moisture, dust and dirt.

Order No. Mfg. No. / Description Price
855657 (91765) 1-7/8" x 60 yds. 36 Rolls Per Case **\$9.98** H

- Designed to minimize bleed-through.
- Use on the 3M Hand Masker M3000 Dispenser.
- 12 rolls per case.

Order No.	Mfg. No. / Description	Price
855772	(06904) 18" x 60 yds.	\$9.98 H

Intertape Hand Masking Film

- Stain resistant, temperature resistant, static treated HDPE film that 'clings' to surfaces for secure protection.
- Hand-Mask provides the flexibility and bleed through resistance of film yet holds paint and gel-coat like paper.
- Prevents overspray and resists paint 'flaking'.
- The top edge is reinforced to allow for easy dispensing/positioning of the film without tearing before extending the folded film to the desired length.

Order No.	Mfg. No. / Description	Price
812364	(HMF-24) 24" x 180'	\$10.98 LQ
812366	(HMF-48) 48" x 180'	\$17.98 LQ
812369	(HMF-72) 72" x 90'	\$14.98 LQ

3M Hand-Masker™ Pre-Taped Plastic Drop Cloth

- Pre-folded high density plastic drop cloth pre-taped with 3M Scotch 2090 Long-Mask tape.
- Plastic folds out to 35 inches.
- Protects various surfaces while painting.

Order No.	Mfg. No. / Description	Price
855900	(34065) 24" x 30 yds.	\$12.98 H
855901	(34066) 35" x 25 yds.	\$17.98 H

3M Hand Masker™ Pre-Folded Masking Film

- Film is treated to resist overspray flaking during multiple coat applications.
- Rolls are dispensed and applied using the 3M Hand Masker M3000 Dispenser.
- Easier and faster to apply than bulk rolls of poly and masking paper.
- Lets light in so work can proceed when there is minimal or no artificial light.
- Ideal when preparing for multi-coat paint, lacquer undercoaters, and industrial coating applications.

Hostar Marine Powerboat and Sailboat Stands

- Tripod design maximizes stand strength, ensures stability on uneven yard surfaces.
- Continuous base prevents legs from spreading...helps prevent sinking into gravel or asphalt paving.
- Heavy duty angle iron construction won't twist or bend.
- Choice of durable painted finish or tough hot-dipped galvanizing for years of maintenance-free use.
- Lightweight, zinc-coated screw with handle (rated at 12,500 lbs.) for little maintenance, easier handling and longer life.
- 12" x 12" finished plywood pads protect hull without slipping.
- HOSTAR's unique adjustable keel stands are designed to support the boat's weight.
- Can be used alone or combined with wood blocking under the keel.
- Stackable.

- Ductile steel handle will not hold water.

Order No.	Mfg. No. / Description	Price
480894	(PWT) Repl. Plywood Top Only	\$14.98 E

ROK Pine Blocks

- It is recommended at least two blocking piles placed on hard, stable ground to handle the boat's weight.
- Each pile consists of four blocks, base blocks facing fore and aft running parallel to each other, and two blocks across the two base blocks for the keel to reduce sinking of the blocks.
- Higher or lower blocking piles can be used to change the angle of the vessel fore and aft.
