CONSOLE FEATURES:

- Time & Date: View the current time and date or time of sunrise/sunset.
- Moon Phase: See the eight phases of the moon from new to full.
- Forecast Icons: Icons let you know to expect sun, part sun, clouds, rain or snow.
- Temperature & Humidity: Console updates outside temperature every 10 seconds and inside temperature every minute. In addition, outside humidity updates every 50 seconds and inside humidity every minute.
- Retransmits: Main console can extend range to additional consoles up to 1,000 ft.
- Barometer: Five-position trend arrow shows whether barometric pressure is rising, falling or stable.
- Variable Display Options: See updated variables every 10 seconds for heat index and wind chill to get a better "feel" for the outside environment.
- Rain: Console updates rain totals and rain rate every 20 seconds for the last 25 hours, days, months.
- "Change in Weather Since Yesterday" Feature: Allows comparisons of changes of temperature and barometric pressure from day to day.
- Weather Center: Weather Center provides additional information for each weather variable, such as daily highs and lows, temperature changes by the hour and barometric value changes. Also displays astronomical data such as meteor showers.
- User-Friendly Keypad: Domed buttons are easy to sense and press. Glow-in-the-dark keypad buttons give you access to weather information all day and all night. The Done key returns user to "current" screen from anywhere in the program.
- Graphs: Graph the last 25 hours, days or months. View up to 50 graphs including temperature, rain, rain rate, wind and barometric pressure - all on the console.
- "This Time Yester Day" Feature: Data point on the graph indicates the weather during the same time yesterday to help compare and analyze day-to-day weather trends.
- Alarms: Set 22 simultaneous, different alarms to warn of dangers such as high winds, freezing temperatures, rain rate, flood warning and more.
- Wind Speed: See windspeed updates every 2.5 seconds. Displays windspeed in miles per hour, meters per second, kilometers per hour and knots. Provides the average and high wind speed for two-minute and ten-minute intervals.

INTEGRATED SENSOR SUITE (ISS) FEATURES:

- Wireless: Frequency-hopping spread spectrum radio ensures consistent transmission up to 1000 ft. (300 m) from integrated sensor suite to console.
- Rain Collector: Self-emptying tipping spoon measures rain with 0.01" (0.2 mm) resolution.
- Anemometer: Records wind speeds as low as 2 mph (3 km/h) and as high as 180 mph (290 km/h).
- Weather Proof Cover: Corrosion-resistant cover provides durability in extreme conditions. Electronics are potted or over-molded for added moisture shielding.
- Radiation Shield: Provides excellent protection from solar radiation and other sources of radiated and reflected heat.
- Temperature/Relative Humidity: Provides outside temperature readings from -40° to 150° F (-40° to 65° C). Also measures relative humidity from 0 - 100%.
- Easy installation: Installs easy and quickly with included mounting hardware kit.
- Wind Direction: Measures wind direction in compass points or degrees.
- Solar Panel: Energizes the station during the day. On-board super capacitor provides power at night. Lithium battery provides backup when needed.
- Bubble Level: Allows more accurate installation and better data collection.

SPECIFICATIONS:

- Console. Backlit LCD display measures 3" x 4.13". Console dimensions: 7.5" x 5.75" x 4.5". Weighs 1.48 lbs.
- Integrated Sensor Suite (ISS). Dimensions: 12.95" x 5.75" x 13.40". Weighs 5.44 lbs.
- Vantage Vue mounts on top of poles 1" to 1-3/4" in diameter. Pole sold separately. Tripod also available.

Davis Instruments Cabled Vantage Pro2™ Weather Station

- Includes: Vantage Pro2 console, integrated sensor suite, mounting hardware, and AC power adapter.
- Integrated sensor suite includes rain collector, temperature and humidity sensors, anemometer, and 40' anemometer cable.
- A 100' cable connects the sensor suite to the console.
- It offers the ultimate in versatility and options for the professional weather observer and the serious weather enthusiast.
- A wide range of options and sensors.
- You'll get your own local forecast, highs and lows, totals or averages, and graphs for virtually all weather variables over the past 24 days, months or years all without using a PC.
- Fast updates every 2.5 seconds (10x faster than the competition).
- Vantage Pro2 is also an excellent choice for emergency professionals, farmers, schools, researchers, municipalities and others to monitor wind and moisture conditions, irrigation requirements, and potential flooding.
- It can be customized with a range of add-on options, such as solar and UV radiation sensors, and soil moisture stations.
- Cabled model is perfect for economical installation or for field installation using our Complete System Shelter.
- No solar power.

Price
\$606.98 E

VANTAGE PRO2 FEATURES:

- Rainfall measured in 0.01 or 0.2 mm increments.
- Temperature, both inside and outside, currently and for each of the last 24 hours.
- Humidity, both inside and outside, currently and for each of the last 24 hours.
- Wind Speed in 1 mph, 1 knot, 1 km/hr, or 0.1 m/s resolution. Anemometer can be installed separately from rain collector for highest accuracy.
- Wind Direction, both current and dominant, shown on compass rose with 16 points.
- Barometric Pressure given by a five-position trend arrow.
- Current and Historical Data, such as highs and lows, may be viewed for up to 24 days, months or years.
- Forecast displayed in icons for sun, partly cloudy, clouds, rain or snow. 12-hour icon forecast plus 2448 hour ticker tape forecast at bottom of screen.
- Moon Phases in eight stages, from new to full to new.
- Time and Date always on view. Also displays time of sunrise, sunset, time and date of highs and lows.
- Ticker Tape Display provides expanded forecast details and additional information on current conditions.
- Graphing Function shows last 24 hours, days or months of readings or highs and lows. View over 80 graphs, including additional analyses of temperature, rain rate, wind and barometric pressure. Optional WeatherLink software allows even greater analysis.
- Alarms may be set for more than 70 functions.

Davis Instruments Windex 10.Sport Wind Vane

- Windex 10.Sport is a 10" Windex wind vane for small keel boats, sport-boats and dinghies.
- Features: Sapphire suspension bearing for super low friction and extra sensitivity.
- 10" vane (25.4 cm) pivots atop support shaft, which mounts adjustable tacking arms with tabs.
- Vane and tabs have reflective surfaces for high visibility day and night.
- Includes glass reinforced polycarbonate J-Base for mounting side, top or front of mast. J-Base fits masts of most small boats and dinghies.
- Stands just 9.25" tall and weighs 1.2 ounces.

Davis Instruments Key Buoy Key Ring

KEY BUOY

- When keys fall in the water, Key Buoy self-inflating key ring opens up, releasing an air tube which inflates automatically.
- The 14" inflated tube extends above the water, allowing you to reach over and pick them up.
- Rises to the surface as fast as 60 seconds.
- Strong enough for items weighing up to 2.8 oz., such as key sets, small tools or deck plate key.
- Suitable for single use only.
- Tube carries keys to the surface for easy retrieval.
- Key Buoy maintains buoyancy on the surface of the water for over an hour.
- Activator is sodium bicarbonate and tartaric acid, a mild irritant.
- Not a toy. Prevent contact with eyes and skin; avoid inhalation.
- Activated product should be promptly disposed. Recyclable.
- Unit size: 2.4" x 1.6" x 0.6". Weight: 1.1 oz.

Order No.	Mfg. No. / Description	Price

All artwork must be submitted ready to print as is. We will make our best attempt to center the image on the key float unless otherwise indicated.
 We only accept High resolution AI, EPS and PDF files. We need your file to have been created in Adobe Illustrator (or another drawing program) and saved as an EPS or AI or JPEG file. All fonts must be saved as "Outlines". Files created in Photoshop or taken off the internet (rasterized) will print with jagged edges on all sides of the graphics. If we do not have a vector file (made from shapes) we will have to regenerate the artwork at a \$60 fee. All files must be one color setup.
 No dropshadows, outlines or fades. If your artwork is wrong and you sign off on the proof then your Key float will print wrong. What you submit is what we print.
